ABOUT US

Composed and mastered in the Durban's underground house music scene, recognized as the country's most underrated house producer and DJ, Argento Dust has been gradually on the rise and has materialized his ambition to become one of Africa's greatest.

His work, which is of high-esteemed stature, has resulted in him being featured on various publication and compilations by brands such as Mixmag and Black Coffee. Having performed alongside many prestigious artists such as Zakes Bantwini, Zahara, NaakMusiq and at various platforms, this pioneer has no intentions of deviating from his momentum of being Africa's next big artist.

Argento Dusts' love to make and perform music was provoked back in 2010, producing most Dance Music genres under many aliases with production credit on "Babes Wodumo feat. Mampintsha Mercedes", "Shimza - Congo Congo" & "Zulu MKhathini feat. Moonchild Sanelly - Shikisha".

2018 saw Argento Dust fully focusing on his brand, collaborating with Shimza on a track titled All Alone, which was released on Shimza's Ep titled 'All Alone'. He then formed a music stable with Kususa called Back Noise Music Africa, self-releasing his EP - Little Things in 2021.

Argento Dust was positioned #13 of Traxsource Top 100 Afro House Artist of 2018 and holds a Dance Music Award South Africa nomination.
